

Homework 7

Nov. 9, 2023

Task:

Conduct a systematic review of what we have learned up to Nov.9's lecture.

Requirements:

You can do the review in your own way. Write a review report with no more than 4 pages. The report should include (but not limited to) at least the following contents:

- A list or table for the main concepts and methods we have learned, each with a brief text description.
- A graph or several graphs showing the relations among the methods and concepts.

The report can be of any format you prefer, but the contents should be well organized.

Scores will be given according to the completeness of your review, and the correctness of your understanding.

Due date: Nov. 22 (Wed.) 23:59 Beijing time
